SAN LORENZO GOLD CORP.
Notes to the Condensed Interim Consolidated Financial Statements
For the three months ended March 31, 2024 and 2023
(expressed in Canadian dollars)

1. Nature of operation and going concern

On December 16, 2020, Kairos Meals Corp. (“Kairos”) and Tailwind Capital Corporation (“Tailwind”) were amalgamated to form San Lorenzo Gold Corp. (the “Corporation” or “San Lorenzo”) which completed Tailwind’s qualifying transaction in accordance with the policies of the TSX Venture Exchange Inc.

The Corporation’s principle business activities is the acquisition and development of mining properties in Chile and its common shares trade on the TSX Venture Exchange under the symbol SLG.

The head office is located at 700, 903 – 8th Avenue SW, Calgary, Alberta, Canada, T2P 0P7 and the registered office of the Corporation is located at 800, 33 – 7th Avenue SW, Calgary, Alberta, Canada, T2P 2Z1.

Going concern

The consolidated financial statements have been prepared by management in accordance with International Financial Reporting Standards (“IFRS”) on a going concern basis. The going concern basis contemplates the realization of assets and the settlement of liabilities in the ordinary course of business. If the Corporation is unable to raise funds to pay its liabilities as they become due and successfully finance its current and future exploration projects, it may not be able to realize its assets and discharge its liabilities in the normal course of operations.

For the quarter ended March 31, 2023, the Corporation reported a net loss of \$ 78,077 (2022 – loss \$85,606) and negative cash flows from operations of \$ 25,592 (2023 - \$59,206 negative cash flow). These conditions indicate the existence of a material uncertainty which may cast significant doubt related to the Corporation’s ability to continue as a going concern. If the going concern assumption is not appropriate, adjustments may be necessary to the carrying amounts and classification of the Corporation’s assets and liabilities. The accompanying financial statements do not include any adjustments that may result if the Corporation is unable to continue as a going concern, and such adjustments could be material.

2. Basis of Presentation

a. Basis of measurement (continued)

These unaudited Condensed Interim Consolidated Financial Statements (“the “Interim Statements”), including required comparative information, have been prepared in accordance and compliance with IFRS as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Reporting Interpretations Committee (“IFRIC”) in effect at January 1, 2023.

These Interim Statements, and the policies applied herein, were authorized for issue by the Board of Directors on May 27, 2024.

Certain information and footnote disclosures normally included in the annual audited financial statements prepared in accordance with International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board (“IASB”) and interpretations issued by the International Financial Reporting Interpretations Committee (“IFRIC”) in effect on January 1, 2023, have been omitted or condensed. These Interim Financial Statements should be read in conjunction with San Lorenzo’s December 31, 2023 audited financial statements.

The results reported in these Interim Statements should not be regarded as necessarily indicative of results that may be expected for an entire year. The policies set out below are consistently applied to all periods presented, unless otherwise noted.

These Interim Statements have been prepared under the historical cost method except for share-based transactions and certain financial instruments which are measured at fair value.

The Interim Statements are presented in Canadian dollars, which is the Corporation’s functional currency. The functional currency of the Corporation’s 99% owned subsidiary, Compañía Minera San Lorenzo Limitada (“Minera San Lorenzo”) is the Chilean Peso

SAN LORENZO GOLD CORP.
Notes to the Condensed Interim Consolidated Financial Statements
For the three months ended March 31, 2024 and 2023
(expressed in Canadian dollars)

b. Consolidation

The Interim Statements include the accounts of the Corporation and Minera San Lorenzo (hereafter referred to as the "Corporation"), which is a limited liability partnership. The Corporation has consolidated the assets, liabilities, and expenses of Minera San Lorenzo after the elimination of inter-corporate transactions and balances. Minera San Lorenzo was incorporated in Chile on May 17, 2016 and the principal business is the acquisition and development of mineral properties.

c. Use of judgments and estimates

The preparation of the Interim Statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the Interim Statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results ultimately may differ from those estimates.

d. Unrealized foreign exchange on translation of Chilean subsidiary

Foreign currency translation is used to convert the results of a parent company's foreign subsidiaries to its reporting currency. In compliance with IAS 21 (IFRS), foreign currency monetary and non-monetary accounts are converted using three different exchange rates:

- 1) Closing rate at the end of the reporting period;
- 2) Historical cost at the date of the transaction; and,
- 3) Average rate throughout the reporting period.

Asset properties are converted to the reporting currency using the closing rate at the end of the reporting period. This is the primary reason for the unrealized foreign exchange loss of \$356,043 in this quarter due to the weakening of the Chilean Peso. At December 31, 2023 Cdn \$1 = CLP 666.06. At March 31, 2024 Cdn \$1 = CLP 724.46. This resulted in the same assets valued at \$4,358,194 at December 31, 2023, to be valued at \$4,006,877 at March 31, 2024; a decrease in value of \$351,317.

3. Summary of Significant Accounting Policies

These Interim Statements have been prepared for all periods presented, following the same accounting policies, estimates and judgements and methods of computation as the audited annual financial statements for the year ended December 31, 2023.

4. Mineral properties - exploration and evaluation expenditures

The Corporation's exploration and evaluation expenditures relate to mineral properties in Chile and are as follows:

	-\$ Cdn -
Balance, December 31, 2022	4,157,544
Addition	817,014
Foreign exchange effect	(303,473)
Balance, December 31, 2023	4,671,085
Addition	219,322
Foreign exchange effect	(356,043)
Balance, March 31, 2024	4,534,364

Management has reviewed for impairment indicators at March 31, 2024, and December 31, 2023, and determined there were no indicators of impairment.

Mineral Property Description

The Corporation currently holds 100% title interest in mineral claims comprising five discrete property packages with exploration potential to discover commercial deposits of copper and/or gold and/or silver through its Chilean subsidiary Minera San Lorenzo.

Notes to the Condensed Interim Consolidated Financial Statements
For the three months ended March 31, 2024 and 2023
(expressed in Canadian dollars)

Mineral Property Expenditure Commitments

The mineral properties do not require any minimum work or expenditure commitments. The Corporation is obligated to make annual tax payments to the Chilean government in relation to the mineral properties. The tax is calculated by the government using an internal tax unit, Unidad Tributaria Mensual "UTM". These tax payments are payable in the second quarter of the year and have been made during the current and prior years.

5. Notes Payable

Notes payables are comprised of the following:

	March 31, 2024	March 31, 2023
Note payable to LITH -beginning of the year	\$ 928,868	\$ 953,088
Accretion	-	46,912
Fair value adjustment	-	(106,700)
Accretion for the three months ended March 31,	8,892	8,892
Endng Balance	\$ 937,760	\$ 902,192

The notes payable is allocated as follows:

Current	\$ -	-
Long-term	937,760	902,192
Endng Balance	\$ 937,760	\$ 902,192

During the year ended December 31, 2020, an agreement was entered into between Kairos and Lithium Chile Inc. ("LITH"), the former parent company of Kairos, to transfer certain gold, silver and copper properties (the "Retransferred Mineral Claims"), having a carrying value of \$1,056,320, from San Lorenzo back to Minera Kairos (the "Retransfer Agreement"). These properties were originally transferred to Kairos during the year ended December 31, 2019. The values and terms of the notes payable were adjusted as follows:

- i) The Minera Kairos note payable, with the original face value of US\$1,600,000 together with accrued interest of US\$62,334, was satisfied in exchange for the Retransferred Mineral Claims;
- ii) The LITH note payable was renegotiated from US\$1,115,000, plus interest, to CAD\$1,000,000 with the repayment term extended from May 16, 2020 to November 30, 2021 and is unsecured;

On June 30, 2021, the LITH note payable was amended to extend the maturity date from November 30, 2021 to November 30, 2022. In consideration for the extension of the maturity date, the Corporation issued 500,000 common shares to LITH. The shares were subject to a hold period expiring four months and one day from the date of their issuance.

On December 31, 2022, the LITH note payable of CAD \$1,000,000 was renegotiated to extend the repayment term from November 30, 2022 to December 31, 2025, and the Corporation will pay to LITH, interest at 8.0% per annum payable annually with common shares in the capital of the Corporation at the 20-day weighted average trading price before the date of payment.

8. Management of Capital

The Corporation's capital currently consists of common shares. The Corporation's capital management objectives are to have sufficient capital to be able to explore and develop mineral properties in Chile. The Corporation manages the capital structure and adjusts it in light of changes in economic conditions and the risk characteristics of the underlying assets.

The Corporation does not have any externally imposed capital requirements to which it is subject.

9. Financial instruments and risk management

The Corporation, as part of its operations, carries financial instruments consisting of cash, due from related party, other receivables, trade and other payables, notes payable due to related parties, and due to shareholders. It is management's opinion that the Corporation is not exposed to significant credit, interest, or currency risks arising from this financial instrument.

The carrying amount of cash, due from related party, other receivable, trade and other payables, due to related parties and due to shareholder approximates its fair value due to its short-term maturity.

The carrying amount of notes payable approximate its fair value due to market rate of interest being applied to this financial instrument.

Credit Risk

Credit risk is the risk of loss associated with the counterparty's inability to fulfill its payment obligations. The Corporation believes it has no significant credit risk as cash is held with reputable banks in both Canada and Chile.

Liquidity Risk

The Corporation's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet current liabilities when due. As at March 31, 2024 the Corporation had a cash balance of \$ 339,743 (2023 - \$59,040) to settle current obligations of \$404,604 (2023 - \$301,978). Due to the nature of the mining industry, additional financing will be required in due course. Management will seek additional forms of financing through the issuance of new equity or debt instruments to continue its operations and there can be no assurance it will be able to do so.

Market Risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

(1) Interest rate risk

The Corporation believes it has negligible interest rate risk due to its cash balances and fixed rate interest-bearing debt.

(2) Foreign currency risk

The Corporation is exposed to the risk of changes in the Canadian/U.S. dollar exchange rate and in the U.S./Chilean Peso exchange rate for services and geological costs that are denominated in Chilean Pesos and converted to U.S. dollars or directly influenced by U.S. dollar benchmark prices. A hypothetical change of 10% to the foreign exchange rate between Canadian/U.S. and U.S./Chilean Peso would have a material impact of the Corporation's loss during the year.

(3) Commodity risk

The Corporation is exposed to commodity price risk. The risks associated with commodity investments include such uncontrollable factors as inflation, weather, political unrest, foreign events, new technologies and even rumors can have significant consequences to the price of a commodity.
